

leveldb::DBTest::CountFiles

leveldb::DBTest::DeleteAn
SSTFile

leveldb::DBTest::RenameLDBToSST

leveldb::EnvWrapper
::GetChildren

```
graph LR; A[leveldb::DBTest::CountFiles] --> D[leveldb::EnvWrapper::GetChildren]; B[leveldb::DBTest::DeleteAnSSTFile] --> D; C[leveldb::DBTest::RenameLDBToSST] --> D;
```

The diagram illustrates three method calls from the `leveldb::DBTest` namespace pointing to a single target method in the `leveldb::EnvWrapper` namespace. The target method is `GetChildren`. The three calling methods are `CountFiles`, `DeleteAnSSTFile`, and `RenameLDBToSST`. Each calling method is represented by a white rectangular box with a black border, while the target method is represented by a gray rectangular box with a black border. Blue arrows indicate the direction of the calls from the calling methods to the target method.
